By Fire Chief J. J. Benner, Guest Editor  
As chief of the Torrance fire department, I join the many others in advocating an affirmative vote on Propositions 1, 2, 3, and 4, which will be presented to the Torrance voters on Tuesday April 13.

J. BENNER

Torrance's present fire department facilities were quite adequate and suitable for the past population of 20,000. It is entirely inadequate for today's population of 50,000 or the approximate anticipated population of 90,000 to 100,000 by 1960.

No matter how we look at it Torrance is growing in leaps and bounds and it will continue to grow. Adequate facilities must be furnished to protect your lives, your homes, your schools, factories and the mercantile district of Torrance.

The city of Torrance covers an area of 18.88 square miles this area is covered by three fire stations which at present are taxed far beyond the normal requirements of a modern up-to-date fire department. It is more than ever vital that we have a fire department that parallels the increasing growth of the city.

The proposed plans of proposition two, will include a headquarters station at Carson street and Crenshaw boulevard, and an additional station at Calle Mayor, near 101 Highway in the Hollywood Riviera district. The present North Torrance station is to be enlarged to house additional equipment and personnel.

As a taxpayer and member of the Torrance fire department for the past twenty-five years, I am well aware of the crowded conditions in all of the city buildings and the lack of adequate recreational facilities.

I urge you the voting public to please cast a yes vote for proposition 1, 2, 3, and 4 on April 13. Regardless of how you vote, Yes or No, by all means exercise your right as an American citizen and vote.
